

My child is unwell, what should I do?

NO

Would you have sent your child to school before Covid?

YES

Keep your child at home until they are well enough to return. If they have any of the main Covid symptoms **get a test** as soon as possible. Stay at home and isolate until you get the test result. **Anyone you live with, and anyone in your support bubble, must also isolate.**

Do they have any of these symptoms?

- ✓ **A high temperature** – feeling hot to touch on chest or back
- ✓ **A new, continuous cough** – coughing a lot for more than an hour, or 3 or more coughing episodes in 24 hours (if your child usually has a cough, it may be worse than usual)
- ✓ **A loss or change to sense of smell or taste** – they cannot smell or taste anything, or things smell or taste different to normal.

Does your child have an underlying medical condition?

NO

Children who are otherwise well but have:

- ✓ A runny nose
- ✓ Sore throat without a fever
- ✓ Mild colds

Can come to school as normal.

YES

Speak to their medical professional about testing criteria if you haven't already seen or spoken to them or had a letter from them.

NO

YES

Keep your child off school and get a test. All household members must isolate. A positive result means the child must isolate for a further 10 days and anyone in their household/support bubble must isolate for 10 days from the day after the individual tested positive.
